

Mobile dustless Sandblasting Equipment

Explore the range of top-quality, reliable and efficient Elcometer dry **sand blasting equipment machine** for effective surface preparation in various industries. Our cutting-edge sandblasting machines are made in UK and offer superior performance, maximum efficiency, and reduced media costs. Whether you are a professional blasting contractor in need of industrial blast equipment or require a reliable sandblaster for surface treatment, our range of dry abrasive blasting solutions cater to diverse sizes and needs. The air flow is optimised with a 1 ½ pipe diameter and the higher nozzle pressure results in faster coverage. The Elcometer range of abrasive blast machines are engineered to work harder, last longer and perform better. All our sandblasting pots meet international standards for industrial blast equipment including the Australian AS1210. At **Quantum Blast**, we take pride in providing the highest quality abrasive blast equipment at the best price .
