Bell Lamp by Normann Copenhagen is robust, the form simple. Bell is a ceiling lamp in an iconic bell shape and with special attention paid to detail. Its round, even surface gives the lamp the impression of being cast. Rather than being hidden, the gathering between the lead and the lamp is accentuated in a modern and original way. Bell Lamp was designed by Andreas Lund & Jacob Rudbeck, hang a few Bell lamps in the kitchen, use it over the dining table, or illuminate a large hall or office environment.
